

Instructions to download and play the game:

Windows:

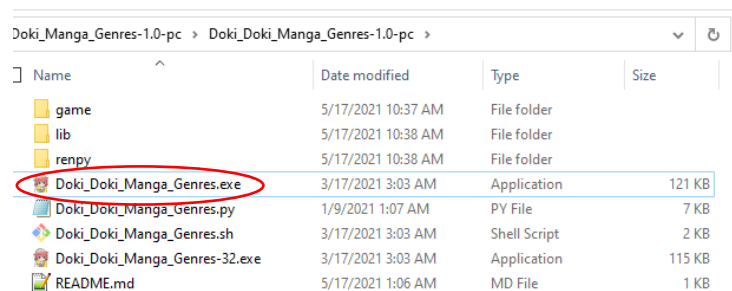

1. Download the “Doki_Doki_Manga_Genres-1.0-pc.zip” file
2. Right click the zip file in your downloads folder and select Extract All...

3. Hit the extract Button.

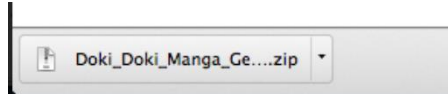

4. Open the folder that was created and find the “Doki_Doki_Manga_Genres.exe”
5. Double Click “Doki_Doki_Manga_Genres.exe”

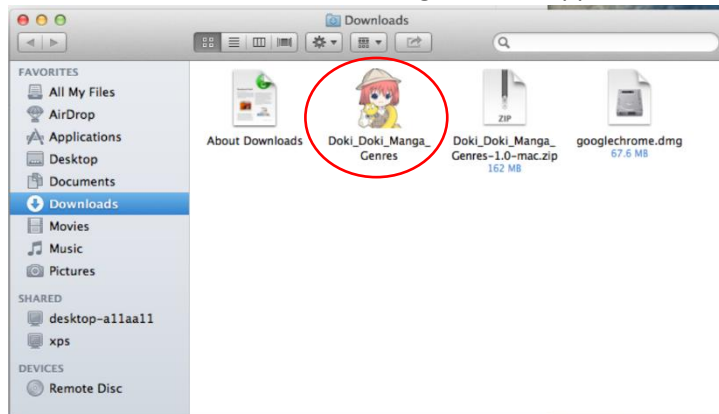

Mac:

1. Download the “Doki_Doki_Manga_Genres-1.0-mac.zip” file
2. Double Click the zip file in your downloads to extract it

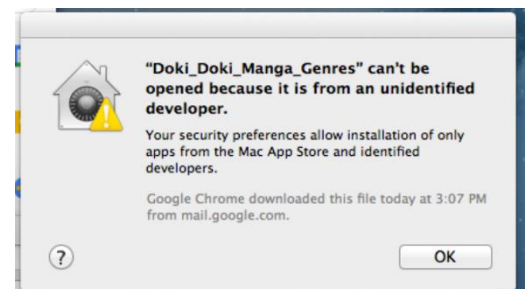

3. Double click on the Doki Doki Manga Genres App

You may be done, however if you see this message:

Follow the remaining steps.

4. Open “System Preferences” and select “Security & Privacy”

5. You may need to click the lock so that it appears as below. Then change “Allow applications downloaded from:” to be “Anywhere”. Then select “Allow From Anywhere” in the pop-up. Finally, repeat **step 3**. [WARNING] be careful not to download and run any suspicious apps while this option is selected.
